## THE ULTIMATE BEEKEEPING MACHINE

01

### **Versatile**

Beekeepers love the versatility of the Avant as it gives them the ability to perform multiple tasks with one machine.

02

### **Compact**

The Avant is compact enough to park across the bed of the truck, even with forks fitted saving you valuable hive space.

03

### **User Friendly**

Avant Loaders are very easy to operate thanks to basic controls and a unique hydraulic connection system.

04

### **Telescopic Boom**

The telescopic boom allowing easy loading across / from one side of trucks and enabling high stacking of pallets.

05

### **Quality**

The Avant is manufactured in Finland to the highest standard using only high quality materials. Avant uses Kubota Diesel Engines backed by a 24 month warranty.

06

### **Reliable**

Operators and owners alike love the high reliability and low maintenance the Avant is renowned for.

07

### **Stability**

A rigid articulation joint means you can safely negotiate demanding terrain and access pollination grounds without damaging surfaces.

08

### **Operator Comfort**

Ideally positioned controls and suspension seat, optional A/C cab and more make operating the Avant a dream.

09

### **Range**

With an extensive product range, encompassing 10 models and over 100 attachments, your needs are covered.

10

### **Power**

The Avant is built to work with large capacity engines and highly capable hydraulics making it not only powerful but efficient too.

## PALLET FORK OPTIONS AVAILABLE

### **FLIP UP PALLET FORKS**

Adding only 12mm to the length of your machine, these forks are truly space saving.

### **STANDARD PALLET FORKS**

An economic solution to your handling needs.

### **SIDE SHIFT FORKS**

For accurate handling. Forks also flip up for space saving properties.

**Financing:** Avant equipment can arrange finance to suit your requirements.
